

ISO 9001

On December 7, 2015, Persson Innovation's plant in Kumla, Sweden was audited for ISO 9001 certification. We are happy to announce that we passed with flying colors. This was a team effort and we appreciate everyone's commitment to get this accomplished before the end of the year. According to Plant Manager Kristian Nordgren, "Our quality management processes have always been in accordance with ISO 9001 standards but now we have the certificate to prove it."
